RE: Endorsement request Spanish HIV Clinical Forum

Dear Mr. Cantón,

With this letter we would like to invite the **Sociedad Española de Enfermedades Infecciosas y Microbiología Clínica** to endorse the **2nd Spanish HIV Clinical Forum: Integrase Inhibitors**, which will be held on **10-11 May** in **Málaga, Spain**, prior to your conference.

The Spanish HIV FORA series consist of an independent abstract-driven program, developed for the HIV medical community in Spain. With the first edition in 2016 taking on the basic knowledge and use of Integrase Inhibitors in clinical practice, this second edition of the Spanish HIV Clinical Forum meeting will go further and more specifically into the subject of Integrase Inhibitors, building on the knowledge shared last year. It will include state of the art lectures, given by experts in the field, and it will allow young researchers to present their data during abstract presentations or clinical case presentations.

The target audience of this meeting consists of Healthcare practitioners involved in daily care for HIV infected patients. The expected number of participants is approximately 100. The 2nd Spanish HIV Clinical Forum is supported by an unrestricted educational grant from ViiV Healthcare.

Given your organization's important position in the field of HIV, we would like to invite you as partner of this event. A partnership with SEIMC will be very important to us in order to increase the credibility and visibility of our meeting and to reach out to all Healthcare practitioners in your network.

Key topics in the program include: Dual-therapy vs. Monotherapy, Pharmacology, and Special Populations; all in relation to Integrase Inhibitors.

As meeting endorser we would appreciate your help with the following:

- Posting the meeting on your website and in your events calendar

We would like to acknowledge your endorsement by offering the following:

- Your organization's logo acknowledgement as Endorser on all meeting communications, materials and website
- 2 complimentary registrations for your organization and free registration for the healthcare practitioners you would like to bring
- Opportunity to add a bag insert of your choice or provide promotional material on your organization for display in the coffee area
- Opportunity to bring your own banner for display in the coffee area

We very much hope this is of interest and look forward to your reply.

Please do not hesitate to contact me should you have any further questions.

Kind regards,

Lena Hartandi-Niesen
